Mission
The mission of the Deputy Chief of Staff for Operations, G-3, and (AMCOPS) is to serve as the principal staff responsible for preparation and sustaining of war fighting in peace and war today and tomorrow. AMCOPS is responsible for both vertical and horizontal integration and internal operations. Provide integrated and responsive support around the clock across the full spectrum of near term Army Operations to include emerging Homeland Defense, global war on terrorism, security, logistics transformation, Force Protection, and law enforcement. Conduct and participate in Joint Chiefs of Staff and Department of the Army (JCS/DA) command post exercises. Exercise command and control of supply chain management to include Army Pre-positioned Stocks, current sustaining base operations, readiness, and management of the Surety Program. Provide direction and management of the logistics transformation; logistics support initiatives, to include the Single Stock Fund (SSF), and National Maintenance Program (NMP). Integrate all assigned initiatives of the Army Transformation, develop future technologies, provide for acquisition interface, engage in enterprise resource planning, and redesign of the Sustaining Base. Be responsible for war planning and supporting logistics, contingency, operational, strategic, and organizational plans for the Army Materiel Command (AMC). Generate future work force requirements, integrate all AMC input into the Army Force Development Plan and oversee the Logistics Assistance Program. Institute the "Lean Thinking" philosophy of management across the G-3 organization.
Functions
Establish procedures for logistics systems functional management to include development, inception, and recognition of functional requirements.
Provide oversight for the operational management function to include asset visibility, inventory management, item identification, supply performance, and major end item management systems.
Provide guidance for strategic planning, acquisition systems life cycle management support, sustaining analysis, and force protection as they apply to the functions of the G-3 for Operations.
Direct the integration of all AMC national level force projection and provider logistics functions.
Establish guidance for all AMC maintenance related missions.
Establish direction, implement, procedure, and provide guidance in the oversight of the national level secondary item requirement and inventory programs.
Provide oversight of the Single Stock Fund (SSF) and National Maintenance Management (NMM) Programs.
Provide oversight of the program, budget, execution, training, personnel management, contractual actions, metrics, organizational environment, and administrative support of the G-3 for Operations.
Provide guidance and direction for managing the Depot Maintenance Programs.

Mission
The mission of Strategic Sustainment and Support Division (AMCOPS-SC) is to plan, organize, direct, and control the Army and AMC logistics functional areas for ammunition by means of specific programs delegated to the Major Subordinate Commands (MSC'S). Monitor and provide input to Class V missile logistics issues. Direct overall AMC Class V retrograde and call forward programs. Plans, directs and reviews Army ammunition suspension and restriction actions and programs. Serve as the AMC focal point for investigations of specific incidents related to major failures and malfunctions. Plan, review coordinate, analyze, and disseminate explosive safety issues for the Director of Operations. Oversee the review of explosive safety waivers and exemptions in coordination the AMC Safety Office. Provide management direction and control of the Chemical Biological Defensive Equipment (CBDE) and Nuclear Surety Programs.
Functions
Support the Maintenance XXI Project effort.
Manage the Depot Maintenance CORE program to meet requirements in support of the Joint Chiefs of Staff (JCS) contingency scenarios.
Manage the arsenal manufacturing program to meet readiness and replenishment requirements in support of the National Security Strategy and Defense Planning Guidance.

AAA AUDIT Results for HQ AMC

AAA Recommendations	HQ AMC Action (17 Feb 04 Memo)
• Eliminate Requirements for Solar Shades.	Requested HQDA guidance on the continuing need for these assets. All assets have been issued and there is an on-going action to procure an additional 4,500.
• Eliminate Requirements for Body Armor Covers and Spectacle Sets (PHC).	Concurred. Body armor covers and spectacles sets are no longer required. Recommended HQDA cancel the OPROJ.
• Eliminate Requirements for 37,700 Sleeping Systems (PHD).	Concurred. Requested HQDA approval to eliminate this authorization. These assets have been fielded to the units. Additionally, requested approval to recompute authorization levels for the other assets based on current OPLAN troop strengths.
• Cancel Project Code PYR, Body Armor.	This is a holding account to store various types of body armor until the Tactical Objective System was fielded. The fielding is complete, requested HQDA guidance to retain the project code.
